Welcome

To the leading and most influential membership association in payments.

In these unprecedented times, where a global pandemic is providing new challenges for companies to adapt, community is more important than ever. The EPA EU brings together the payments ecosystem which is an essential service to our industry. By giving access to a breadth of knowledge and expertise, a strong united voice and an influential network, we create a place where, together as an industry, we can make a difference.

The EPA EU provides the payments community with:

- A forum in which to learn, collaborate and do business with contacts you would not otherwise have met
- A view on pain points that your peers encounter and act upon, such as access to bank accounts, changing industry standards, new regulations and open banking
- A perspective that is ahead of the curve, so you can develop products and services in line with what is coming down the road

- Opportunities to speak to regulators, tap into the heart of central government and engage with authorities to affect change across the wider industry

I believe that belonging to the EPA EU gives us a chance to contribute to the world around us. To influence who adopts emerging payments products and services. And to help improve lives everywhere. If you want to effect change within the industry, join the EPA EU.

“

"If you're going to really prosper in payments, you need access. You need to know the right people. And you need to be on the pitch and make your voice heard.

You also need the freshest news and the latest thinking, and a pool of partners and prospects in which to fish. And you need influence over the future landscape so that when you get there, you thrive.

As a member of the EPA EU you will move your business from reactive to proactive to predictive. From follower to leader. Gaining first mover advantage or a competitive edge. And you will avoid investing in no-hope technology or from incurring a regulator's wrath.

You need powerful and influential friends. Lots of them."
